

### Prerequisites:

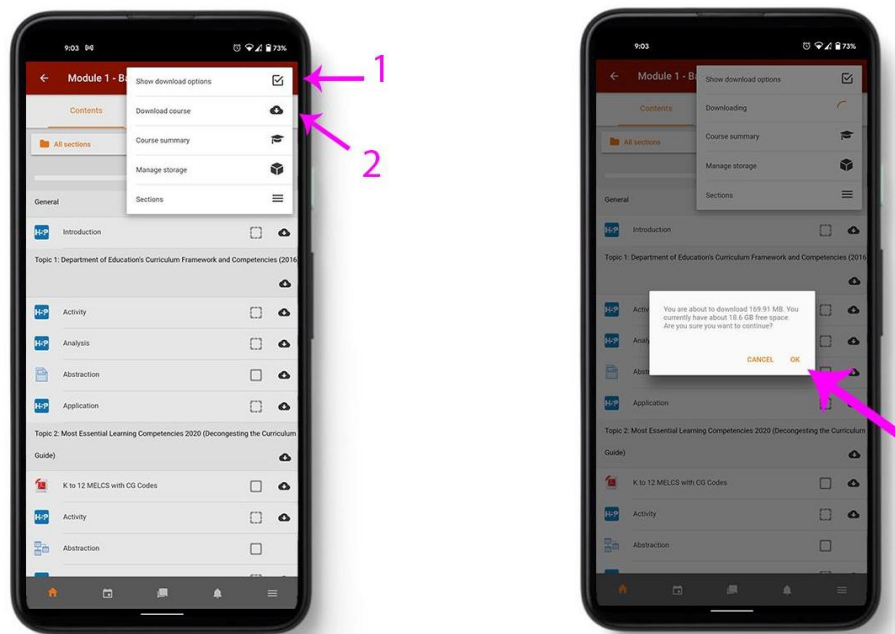

- Android phone
- Internet Connection through WIFI or Mobile Data
- Iteach launcher and Moodle (Installed)
- Successfully logged in account (Refer to how to login quick guide to perform this task)

### Steps:

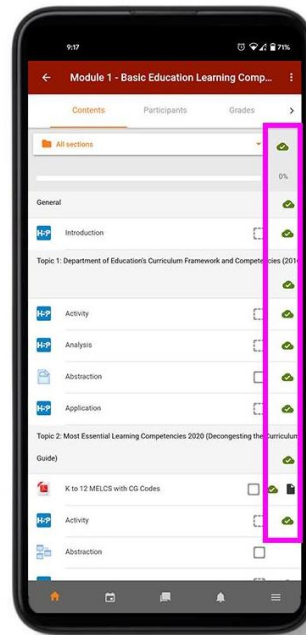

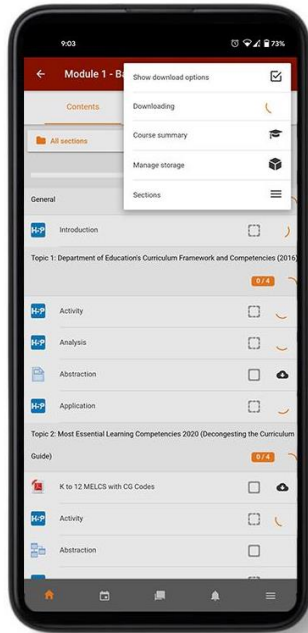

- Go to **site home** and tap **available courses** to search your activities/lessons
- Tap the **3 vertical dots** to view options

- Check **show download options (1)**, then tap **download course (2)**
- Notification will pop-up and tap **ok**, wait to finish the download/s

- Downloading starts (time is depending on the speed of internet)
- After successfully downloading the course, the **green cloud icon** will appear
- Now you can view/access it even without data/internet.

Alternatively resources can be downloaded selectively to save on memory/storage space of the mobile device by selecting the Show Download Option button then clicking the resources you intended to download and make offline.
