

## Prerequisites:

- Android phone
- Internet Connection through WIFI or mobile data
- Google account for Google Play Store

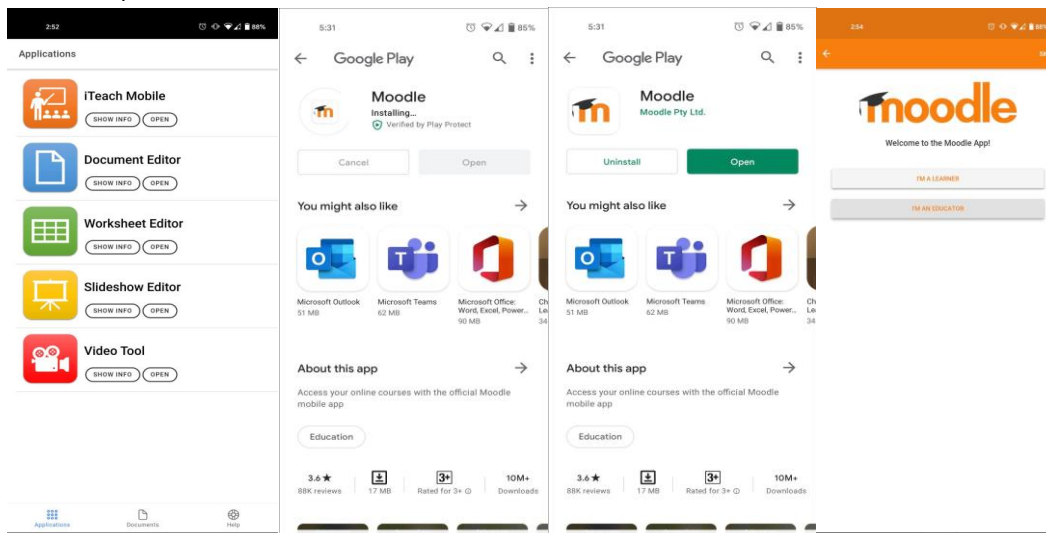

## Installation of iTech Launcher

- Open **Google Play Store** in your Android Phone
- In search bar type **itech launcher** and install
- Open the iTech Launcher
- Wait for itech launcher to load

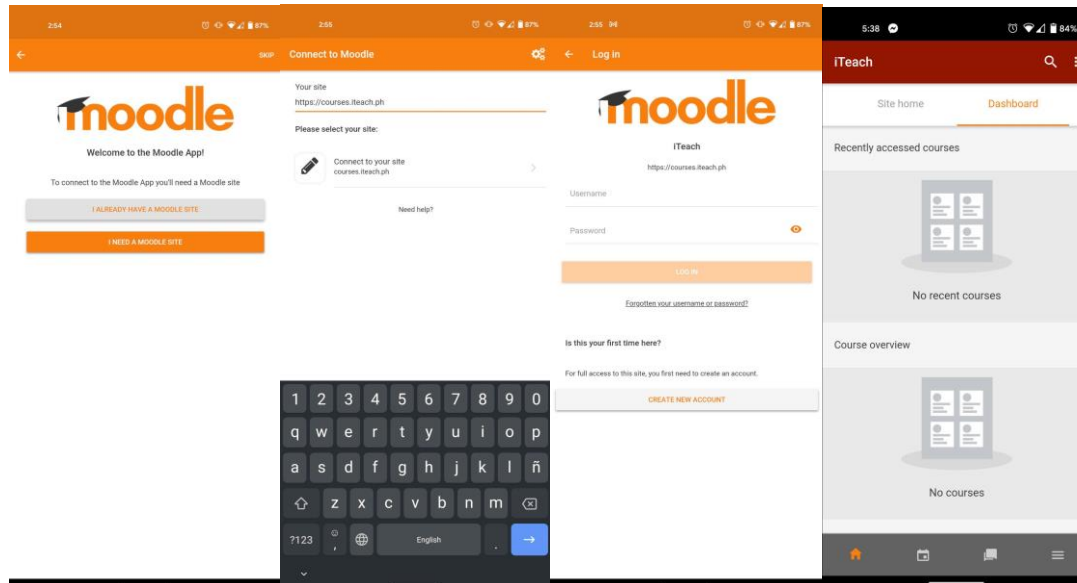

## Installation of iTech Mobile (Moodle)

- Once you're logged in **iTech Launcher**
- Tap **iTech Mobile**
- It will back you to Google Play Store then install **Moodle**
- Open Moodle

- Select **I'm an educator** if you are **teacher/coach** or **I'm a learner** for **student/coachee**
- Select **I already have a moodle site**
- Type URL of iTeach <https://courses.iteach.ph>
- Type your **username** & **password** then tap **log-in**
- Now you're successfully logged-in in **courses.iteach.ph** in mobile

### Installation of the rest of the other applications

- On some Android device, the rest of the components are already installed
- If not, just proceed to **open** and **install** the Apps
